

# How to Use this Pioneer Register

---

All entries in this pioneer register were either supplied by contributors or have been researched by members of the Bathurst Family History Group. The amount of information on each pioneer will therefore vary and may include: birth date & place; marriage details; details of their children; details of when & how they may have arrived in Australia & the ship; details of arrival in Bathurst; residence; occupation and other information.

Contact details are available for many of the contributors, particularly the more recent ones. In many cases contributors have not authorised the publication of their personal details or were included in the previous Pioneer Register from the early 2000's and have not yet been able to be contacted. In such cases, researchers should send an email to [pionreg@bathurstfhg.asn.au](mailto:pionreg@bathurstfhg.asn.au) and we may be able to provide further information. Particularly if the entry says *further information supplied*.

Despite very careful checking, it is unfortunately inevitable that there will be errors; both contributed and introduced. If you find errors in the names, dates or places shown, please let us know by emailing [pionreg@bathurstfhg.asn.au](mailto:pionreg@bathurstfhg.asn.au) If you have additional information on an entry or wish to submit further entries please go to the Resources/forms tab and download the Pioneer Register Input Form.

When doing a Name Search for a pioneer, the program will list pioneers alphabetically followed by spouses (IF not already shown as a pioneer) then first names of children of the pioneer. The PID number after the entry can be *clicked on* and will take you to the pioneer entry. Not 100% accurate but may assist in finding entries.
